POPULATION.

Some surprise was expressed last year when the result of the Dominion census was made known. The Dominion system of de jura enumeration secures the population of the Dominion as a whole, but it is injustice to a city situated like Winnipeg, with its large floating population. The thoroughness and perfect system, characteristic of the methods of directory publishers, being bound by no statute or law as to who should be counted; the fact that they are here is all that we want to know, where they came from or how long they intend to remain is not considered. Our hotels, colleges and boarding houses, contain a large number that are not counted by the Dominion census. Our estimate is made up by multiplying the number of names in the Directory. The City of Duluth multiplies by 2⅞, which includes domestics; the City of Toronto by 3. The Winnipeg names are multiplied by 3½, which I consider a fair multiple by a careful census of two large sections of the City, the population under 5 years was found to be 20 per cent. of the whole. The increase, while not as large as in more prosperous days, is very encouraging. We are perfectly satisfied that the City to-day has a population of 42,150, yet we presume there are residents who will maintain that it is over-estimated.

The following Table gives our estimate of the population of the City of Winnipeg for the past twenty-two years :—

All of the information given in this directory has been compiled in the most systematic and reliable manner. Every house in the city has been visited by experienced directory canvassers, who have diligently plied their questions for the names of all members of the family, for relatives, lodgers and boarders, and for persons who may reside upstairs or down, or in the rear, or for others, who, though absent, may make their homes about the premises. This canvass of the residences, however, was not sufficient for the directory purposes, and every office, store, factory and business block was visited and payrolls and lists of employes were copied. Thus the publishers secure in duplicate all the names taken at residences, and, besides, all the names of persons who are lodgers and boarders in places where their names are unknown or where they may have been forgotten, also the names of those who sleep in offices or rooms in business blocks, stores and factories. By this duplicate system of canvassing names, omissions and errors are reduced to a minimum.

INTRODUCTORY.

1897.

The Publishers have much pleasure in submitting herewith the annual edition of their Manitoba and Northwest Gazetteer and Directory, and City of Winnipeg Directory. The book this year, as in former years, is dividedd into six parts, viz.: (1) a complete Farmers' Directory of Manitoba in one alphabetical list, with the Section, Township, Range and Post Office Address; (2) a Gazetteer and Business Directory of the Northwest Territories; (3) a Gazetteer and Directory of Manitoba; (4) a Street Directory of Winnipeg; (5) a complete Alphabetical Directory of Winnipeg; (6) a Classified Directory of Manitoba, the Northwest Territories and Winnipeg.

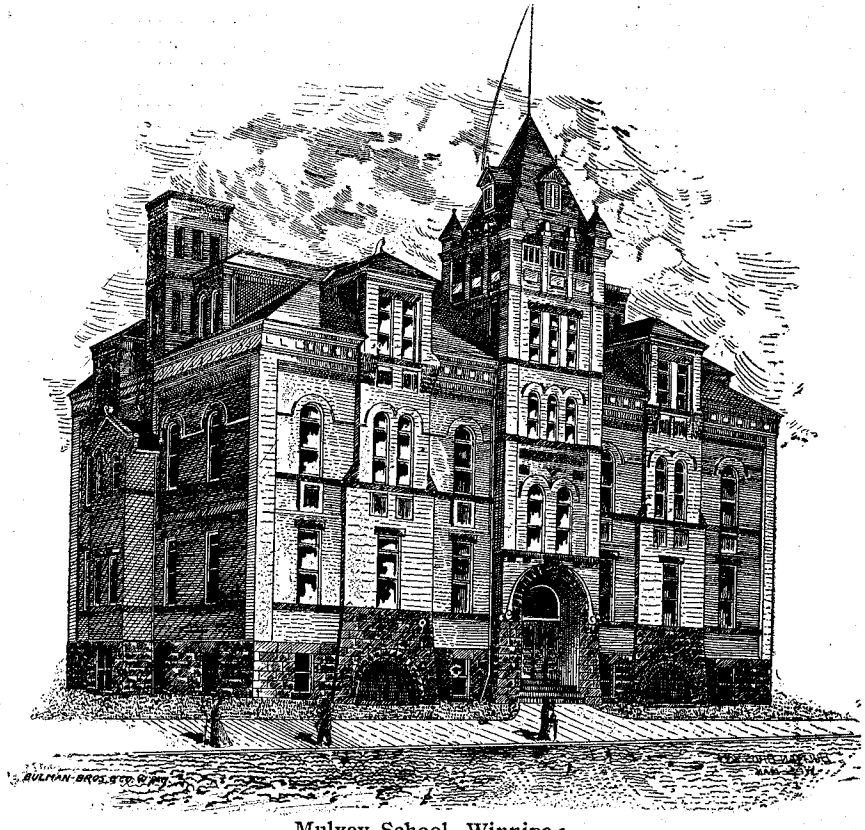

The preparation of Directories, perhaps, as vividly as anything else, impresses the compiler with a sense of the progress of the country in all that constitutes material prosperity. Villages and towns are found to have sprung up where a short time ago it was unbroken prairie.

Looking back over the comparatively short time (17 years) that the compiler has been engaged in the publication of the Manitoba and Winnipeg Directory, I find ample evidence of an expansion in which the people of Winnipeg and the West may well take pride and satisfaction, although it is far short of the hopes and expectations of fifteen years ago. Some claim that it is exhorbitant freight rates, others bad government, that is the cause of our want of greater progress; there may be something in one or both of the causes given, but the principal cause is to be looked for in the low price of wheat for some years back. A few facts of what has taken place may be of some interest. In our 1884 Gazetteer of Manitoba and the Northwest Territories we gave a description of 471 places, including Post Offices. Towns, Villages and Railway Stations; the present edition gives a description of 986 places. In 1870, when Manitoba entered confederation, the population was 11,965, composed of 5,694 French half-breeds, 4,076 English half-breeds, 1,614 whites and 581 Indians. The Dominion census, 1896, gives us 193,425, a de facto census would give us at least 225,000. In 1872 telegraph communication was established between Winnipeg and the East, via St. Paul; our nearest railway station was Breckenridge, Minnesota, distant 260 miles;

First and Only Public School in Winnipeg in 1871.

connection was made by a tri-weekly stage, now 48 passenger trains leave Winnipeg every week over the 13 lines entering the City. In 1876 there were 65 post offices in Manitoba and the Northwest ; there are now 857, with 10,000 miles of post routes.

Directory Borrowers.

Many are the complaints of those who regularly patronize the Directory that they are bored so much by borrowers; not the stranger or private citizen who steps into the office, looks at the Directory, and goes out, but merchants, business men, who continually need it for reference yet are too close-fisted to buy one. These are the individuals who carry off your Directory "just for a few minutes," which generally means A FEW DAYS unless you send for it before; then you have scarcely housed it before some one else presents the request "please lend me your Directory for a few minutes." Perhaps you won't see it again for a week; yet this same borrower will tell our solicitor that he has no use for a Directory, he "knows everybody" and "everybody knows him,"—perhaps, too well.

Directory Borrowers.

Many are the complaints of those who regularly patronize the Directory that they are bored so much by borrowers; not the stranger or private citizen who steps into the office, looks at the Directory, and goes out, but merchants, business men, who continually need it for reference yet are too close-fisted to buy one. These are the individuals who carry off your Directory "just for a few minutes," which generally means A FEW DAYS unless you send for it before; then you have scarcely housed it before some one else presents the request "please lend me your Directory for a few minutes." Perhaps you won't see it again for a week; yet this same borrower will tell our solicitor that he has no use for a Directory, he "knows everybody" and "everybody knows him,"—perhaps, too well.
